

Corporate Use

Corporate Use

BEC

The Cambridge ESOL Business English Certificates (BEC) offer an English language qualification for learners wishing to use English for the purposes of international business. There are three BEC levels: BEC Preliminary, BEC Vantage and BEC Higher, which cover the four main language skills - Reading, Writing, Listening and Speaking, as well as knowledge of vocabulary and grammar.

Many employers around the world recognise the Business English Certificates. Below are examples of companies and organisations worldwide which have used BEC, either for staff recruitment or as part of their training and staff-development programme. Visit <http://www.cambridgeesol.org/recognition/search.php> to search the recognition database online.
